GOULDS REFUSE DIVORCE BILL.

Countess de Castellane's Lawyer Charged
\$175,000 to Free Her of Bond.

New York, March 14.—Miss Anna
Gould has refused to pay a divorce bill
of \$175,000, the price of getting rid
of her French count, Boni de Castellane,
report says, and has been backed up
by her brother, George Gould. Mr. Gould
and others interested in the Gould fam-
ily affairs gave credence to the report
by refusing to deny it.

The bill, it was said, is the charge
made by Edmund Kelly, a former New
York lawyer, now a Parisian advocate.
The countess turned the bill over to
George Gould, who is trustee of her es-
tate, and he is said to have declared
in forcible English that he would not
pay any such sum.

Mr. Gould figured, it was stated, that,
while Harry Thaw is credited with pay-
ing Delphin M. Delmas, his chief coun-
sel, a \$100,000 fee to fight for his ac-
quittal, there was no life at stake in
the issue in the French courts. Mr.
Gould sent the bill to the firm of Con-
sistent Bros. of No. 71 Broadway, who re-
present the Gould interests in France, and
Lorenzo Semple, a member of the firm,
is said to be planning a trip abroad to
try to get the Paris lawyer to shave
down his figure.

Another Prisoner Gets Away.

Boston, March 13.—Edward Kane, who
was sentenced at East Cambridge yester-
day to the Concord reformatory, es-
caped from the Middlesex county offi-
cers while being conducted to the train
at the station. Kane was handcuffed to
four other prisoners, but managed to
slip from the manacles and disappeared
in the crowd.

Deafness Cannot Be Cured

by local applications, as they cannot reach the
diseased portion of the ear. There is only one
way to cure deafness, and that is by consti-
tutional remedies. Deafness is caused by an in-
flamed condition of the mucous lining of the
Eustachian tube. When this tube is inflamed,
you have a running ear, or imperfect hear-
ing, and when it is entirely closed, deafness is
the result, and unless the inflammation can be
taken out and the tube restored to its normal
condition, hearing will be destroyed forever;
since cases out of ten are caused by Catarrh,
which is nothing but an inflamed condition of
the mucous surface.

We will give one hundred dollars for any
case of Deafness caused by Catarrh that can-
not be cured by Hall's Catarrh Cure. Send for
circulars, free.

CANADA

PASSES TARIFF

The Policy of Protection is

Emphasized

PROVIDES OPPORTUNITY

A Continued Preference for British Im-

ports—Raise on Our Boots and
Shoes and Agricultural
Products.

Ottawa, Ont., March 14.—The new Can-
adian tariff passed the committee of
the House Tuesday night.

The opposition made a strong appeal
for a still higher duty on boots and
shoes, large quantities of which are im-
ported from the United States. The
government, however, declined to make
any change in the 30 per cent rate de-
cided upon. The old tariff was 25 per
cent.

DEATH RECORD TO MONTREAL.

Rate Is Higher Than That of Any Im-
portant City on the Continent.

Montreal, Que., March 14.—A report
just compiled by the health department
goes to show that the death rate of
Montreal is larger than that of any im-
portant city of the continent, and ex-
ceeds any of the large European cen-
ters.

The rate during the last year was
just a fraction less than 23 per 1,000,
an increase of two per cent over 1905.

At the same time, the birth rate is
shown to be the highest of any large
city on the continent.

NEWPORT'S EARLY MORNING FIRE

Dr. Cain's House Destroyed—Three Val-
uable Horses Burned.

Newport, N. H., March 14.—The house
and barn of Dr. J. Leavitt Cain was de-
stroyed by fire at 2 o'clock yesterday
morning. The doctor and his family
managed their escape just in time. Three
valuable horses were burned to death
in the barn. The loss on the destroyed
premises is about \$3,500.

Cutting Steel by Electricity.

The work of demolishing the grim and
gigantic skeleton of the Old Palace hotel
in San Francisco is now in active
progress. It is proving an immense task.
Even with a large force of men, supple-
mented by teams and powerful machin-
ery appliances, it is estimated that at
least three months will be required in
which to tear down the massive walls
and remove the wilderness of debris.

An extremely novel and unique elec-
trical process is being employed in the
work of cutting up the structural steel
girders which formed the supports of
the great glass roof of the court. These
laid to a disordered, twisted heap to
the bottom, and it was found impossi-
ble to remove them by even the
most powerful tools.

The method now used is what is known
as the "electrical arc process," and is of
very recent invention. By forcing of
electrical heat of 5,000 degrees, generated
by a large dynamo, into the mass of
iron, a gap is rapidly melted out, and
the girders cut into sections easy to
handle with small cranes. It requires
about 30 minutes to cut, or melt, through
a foot girder. The glare from the tip of
electrical "needle" used is so very in-
tense, that it cannot be looked at with
the naked eye, and the men operating
are compelled to wear a queer looking
cap and thick colored goggles. By means
of this electrical process the work pro-
gresses more rapidly and effectively.—
J. Mayne Baltimore in The Technical World
Magazine for April.

Best, Health and Comfort to Mother and

Child.

MRS. WINSLOW'S SOOTHING SYRUP, for
infants, cures colic, wind, flatulency, re-
duces inflammation, allays all pain, and cures wind
colic. Perfectly safe in all cases. We would
say to every mother who has a suffering child,
Do not let your prejudice, nor the prejudices
of others, stand between you and your suffer-
ing child, and the relief that will be sure to
absolutely cause you to follow the use of this
medicine, if timely used. Price 25c. a bottle.

THE BLOODTHIRSTY STREET-CAR.

Hundreds Killed in Greater New York
Last Year.

If along every mile of street railway
track in the United States a headstone
were raised for every death by accident,
the routes we daily travel would resem-
ble one long drawn-out cemetery.

Within the limits of Greater New York
the total number killed last year rose to
227. For every person killed a number
was injured, some of them crippled for
life. This slaughter and maintain-
ing a criminally needless is sufficiently
attested by a single fact:

In all London in the last year of record
(1903) the total number killed was ten.
According to the Royal Traffic Com-
mission, the tram-cars of London for
1903 carried 455,079,303 passengers. The
total traffic of Greater New York last
year was a little over 1,000,000,000 pas-
sengers carried. These figures, however,
included the subway and elevated traf-
fic, while the records for London do not.
But even on the basis of a comparison
of traffic, the number killed in London
is equivalent to about 27, against about
227 for Greater New York. And this is
an exceptional instance.

What is true of New York is true of
almost every other large city in Ameri-
ca. What is true of London is true of
almost every other large city in Europe.
—John P. Fox, in "The Needless Slaughter
by Street-Car," in The March Every-
body's.

ABOUT THE STATE.

Items of Interest Gleaned From Our

Exchanges.

There is not a state in the Union
which has such poor roads as Vermont.
Says The Good Roads Magazine of New
York city.

Miss Louise Gates has just com-
pleted the forty-fifth term or fifteenth
consecutive year as teacher in the school
at Shelburne Falls.

Edwin McCall, of Stowe, who was
injured Friday forenoon by the falling
of a tree while he was chopping in the
woods, suffered a broken hip but his
injuries are not likely to prove
serious.

There is a dispute, with possible
legal complications, over the office of
constable in Grand Isle. Both V. L.
Hulbert and David Vondel claim the
election. Mr. Hulbert being in posses-
sion.

John Roberts, a Thetford farmer,
was driving only a short distance on
the railroad track the other day, when
a train demolished the sleigh and tore
the harness from the horse, but neither
Roberts nor the horse was injured.

Joel V. Carpenter, a leading citizen
of Starkboro, who died last week, had
held many town offices, represented the
town in the legislature, and was deputy
sheriff for many years. He served in
Company C, Ninth Vermont Volun-
teers, in the Civil War.

George Bryon, who represents a St.
Louis company, was arrested in Mid-
dletown recently on the charge of violat-
ing a village ordinance by selling
stoves without a license, but the jus-
tice of the peace before whom he was
arraigned decided there was not suf-
ficient evidence to hold the man.

William R. Daley, for two years
state's attorney of Bennington county,
will leave Bennington this week for
Brattleboro where he expects to reside
in the future, having foregone a law
partnership with Chase S. Chase. Mr.
Chase is now senator from Windham
county to the state legislature.

A. W. Nelson, of Albany, formerly
of Woodbury and one of the best known
men in Windham county, who recently
passed his eighty-first birthday anni-
versary, was prominent in public affairs
of Woodbury, having held, among other
offices, the position of town clerk and
treasurer for twenty-six years.

Frank L. Clark, who has been elected
constable of the city of Rutland for the
fourteenth time, has held that office
ever since Rutland became a city, the
first year alone excepted. Mr. Clark is
a Republican and said to be a very con-
scientious tax collector, winning out in
a four-cornered fight last week by a
plurality of 499.

A consignment of about two hun-
dred quail ordered from Alabama by
Rutland hunters has arrived in Rut-
land. The birds were taken to the
country club, and will be put out in
about a month, being liberated in small
lots at different points in the outlying
districts about the city. The open sea-
son will begin September 15.

C. H. Tucker, a brakeman on a Bur-
lington & Lamoille train, caught a hen
pleasant one morning recently near
Cambridge station. While the train
was passing in shifting cars, Mr. Tucker
saw the bird, evidently injured, and
after a short chase caught it. The bird
had evidently been struck by a cat as
part of one wing was torn away by
claws. Mr. Tucker will keep the bird
until it is able to care for itself and
release it.

A large number of Brattleboro wo-
men would like their "money back" if
they could recently take from an agent
of the "Bing patent lamp burner" who
has been canvassing the town. The
purchasers of the burners were rather
surprised and not a little displeased
when the grocery clerks informed them
that the same burners for which they
paid the agent fifty cents were on sale
in all the grocery stores at twenty
cents each and had been for a long time.
The burner differs from ordinary burn-
ers only in having a glass cap surround-
ing the wick.

The coal situation in St. Albans which
had not assumed the proportions of a
famine but which appeared somewhat
dubious, was relieved by the arrival
Sunday of two carloads of steam coal,
five of stone and three of egg, of which
the lack was strongly felt. The
cars had been delayed on the New York
Central railroad but when they reached
the Central Vermont they came through
in quick order. About twenty-five more
cars are on the way to local dealers
and manufacturers and several are ex-
pected to arrive in a day or two. It is
probable that there will be no further
shortage as the supply on hand and soon to
arrive will be sufficient to meet all local
demands for some time.

REAL ESTATE FOR SALE.

FOR SALE—Cottage house, 36 Franklin
street, seven rooms. Modern fixtures. Hard
wood floors and finish. P. N. Bailey, 312 North
Main street.

FOR SALE—A cottage house, pleasantly lo-
cated on Liberty street, at the head of Orange
street. Contains eight rooms, bathroom, con-
venient pantry and woodshed. For further
particulars inquire at house, Mrs. L. C.
Batchelder.

FOR SALE—A farm, pleasantly located in a
good farming community. The land of soil
and half miles from creamery and
thriving village and three and one-half miles
from Rutland. The farm is in a high state
of cultivation. Lays in and easy to carry on.
Large stable, barn and house. Very warm,
handy house. Also 25 young Jersey cows,
a Jersey bull, 50 tons of hay, dairy and farm-
ing tools. Terms easy. The farm is a high state
of cultivation. Here is a chance for making
money and obtaining a pleasant home without
any quit. Reason for selling, poor health.
For further particulars inquire of W. J. Batch-
elder, Plainfield, Vt.

TO SELL OR EXCHANGE.

Do you want to buy, sell or exchange your
house? Call or write the Vermont
Real Estate Agency for listing blanks. 220
North Main street, Barre.

FOR SALE.

Right double tenement houses 11 tenements.

One four-story house.
Eighty-five building lots.
All of the above are in desirable locations
and well situated in the heart of the City
of Barre. For further information inquire of
J. P. Trice or H. A. Phelps.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff

Without Herpelcine.

Did you ever see any one trying to
wash themselves without soap or
water?

If you did what would you say of
him?

It is every bit as foolish to try to get
rid of dandruff and to prevent bald-
ness by feeding the germs which cause
it, with Cantharides, Vaseline, Glycerine
and similar substances which form
the principal ingredients of most so-
called Hair Vigors.

Newbro's Herpelcine is successful be-
cause it attacks and kills the parasitic
germs which cause dandruff and bald-
ness. It is the original and only genuine
scalp germicide manufactured.

Sold by leading druggists. Send 10c
in stamps for sample to The Herpelcine Co.,
Detroit, Mich.

Two sizes—50 cents and \$1.00.

E. A. Drown, Special Agent.

STARTING TELEPHONE SYSTEM.

Rutland Company Gives Mortgage Deed
to Get Funds.

Rutland, March 14.—The Vermont
Home Telephone company, which recent-
ly acquired the franchise of the Home
Telephone plant in this city, has given a
mortgage deed on its franchise, rights
and properties to the Empire Trust com-
pany of New York in order to obtain
funds for the erection of the exchange
and construction of a plant in this city.

This is in accordance with a vote at
the annual meeting of the company on
January 21, 1907, to issue first mortgage
gold five per cent bonds not to exceed
\$1,000,000.

The bonds may be issued in the fol-
lowing form:—500 of \$2,000 denomina-
tions; 500 of \$1,000 denomination. They
shall be payable in 1932. For the pur-
pose of retiring the bonds when they
come due, the concern will create a sink-
ing fund in 1912 and will maintain it
thereafter.

"Bunkered."

A man, by way of a joke, dropped a
gold ball into a nest his ancient parrot
had built in the corner of the cage.
The parrot, with exemplary patience on
her nest egg, and it appeared pretty
well heartbroken when the weeks went
by and she found herself unworried.

At last parrot flesh and blood could
stand it no longer. A terrible screech-
ing brought her owner downstairs at
5 o'clock one morning.

"What's the matter, Polly?" he
asked, as he noticed the bird's beak was
chipped trying to get at the egg's in-
terior.

"Matter?" screamed the bird, "Great
Scott! I'm bunkered!"—Tit-Bits.

Worked Like a Charm.

Mr. D. N. Walker, editor of that spicy
journal, the Enterprise, Louisville, Va.,
says: "I ran a nail in my foot last
week and at once applied Bucklen's Ar-
nica Salve. No inflammation followed;
the salve simply healed the wound."
Heals every sore, burn and skin disease.
Guaranteed at the Red Cross Pharmacy.
Price 25c.

A Bad Recommendation.

Lady (in draper's shop)—And is this
color also genuine?

Assistant—As genuine as the roses on
your cheeks.

Lady—H'm! Show me another one.—
Tit-Bits.

Could It Be Possible.

She—Don't you feel well, dear?
He—My head feels heavy. Do you
suppose those biscuits you made could
have gone to my head?—Yonkers States-
man.

FOR SALE!
